No direct reports

Skill Level

Experience

Enthusiasm

**Super Power Required:** An eye for design

**Salary:** £20-30,000 p.a.

## What to expect in Technology

GoGetters, at its core, is a technology business. We're incredibly proud that the market leading technology that underpins our success is all home grown. We're a small team today but one that is obsessive in our pursuit of platform perfection; we come to work every day with the goal of delivering cutting edge functionality and an unparalleled user experience.

## What you'll bring...

You'll bring a confidence and willingness to challenge the status quo, always bringing innovative ideas to the table and employing the principles of continuous improvement. You'll be reporting directly into our Technology Director so a willingness to learn, challenge and be challenged will be key.

## Why this job matters...

As a service business, user experience and service functionality are sacrosanct to GoGetters. Front End Developers are instrumental in upholding and improving the standards we set ourselves in these two areas.

## What you'll be doing – your key accountabilities

- Utilising a variety of languages to develop pixel perfect, responsive web pages.
- Ensuring web development is optimised for smartphones.
- Building reusable code for future use.
- Optimising web pages for maximum speed and scalability.
- Create documentation outlining processes for other team members.
- Snagging and testing websites to ensure they adhere to our high standards

## Skills & experience required for the role

- Proficiency in HTML, CSS, JavaScript, jQuery and AJAX.
- Experience with basic PHP
- Basic knowledge of GIT based workflows.
- Experience with responsive design using bootstrap
- Understanding of SEO principles
- Good problem-solving skills
- Excellent verbal communication skills
- Good interpersonal skills

A great opportunity for a junior developer looking to develop their skills under the guidance of an experienced developer with a stellar track record and reputation within the developer community. The Technology team is set to grow quickly offering clear career progression opportunities for the right candidate.
